Gentlemen:

Please do not allow any further monopolies in the media. I understand you are considering allowing some of the huge media companies to acquire other forms of news casting: TV, radio, Magazines, Newspapers, Movies, Internet or what.

We are already hard put to sieve out the truth from what is allowed to reach the public. Allowing total control of the news to any one, two or three corporations would reduce public belief and trust to zero.

PLEASE don't approve this change.

Thank you,

  
Ann M. Witten

Dear Sir,

It is very important to me, my friends, and family for you not to relax or change the broadcast ownership rules that the American citizens and myself are protected from media monopolies.

It is imperative that these giant media conglomerates do not gain any more control of radio and television news and information than they do today. Do not allow large corporations that are lobbying the FCC to relax their ownership rules which leads to keeping opposing viewpoints off the air.

We deserve (as Americans) to hear all points of view on important issues.

Please continue to be steadfast in protecting our democracy and our freedoms as it has been for decades which has ensured a healthy political debate in our great country. Thank you in advance.

Sincerely,  
Verne Tyler

Please do not attempt to pressure from the  
broadcasting industry to enact rules to allow  
control of the media to pass into fewer and  
fewer hands.

The airways (airwaves) belong to the public. It is your  
duty to guard them. We should not allow monopolies  
to take over local media markets. A merger wave en-  
sued after deregulation occurred in the Telecom.  
Act of 1996 and the numbers of owners have already

decreased as a result. We have already noticed the  
effects of fewer owners being broadcast on the radio  
stations and television and strongly object to their  
one-sided reports.

One of the first things a dictatorship or  
control the air waves. Many stations in the U.S. using  
this control acts a very dangerous precedent and is  
is therefore very undemocratic.

We, the populace, need to hear variety of viewpoints  
in order to reach our own opinion.

Sincerely

William D. Hooley

Dear Commission,

Distribution Center

I am greatly concerned about possible media ownership de-regulation. Already, the nation's seven largest cable television operators control more than 75% of the market. For the health and fairness of our society, we must actively maintain diversity within media sources. It is the Commission's responsibility to ensure this. Negligence to do this would be a great travesty. Please act on behalf of an educated and balanced society.

Thank You,
